QIAO ZHAOCHEN
HUANG ZHAOHENG
WANG YANLONG

Main Feature

- Trending movie discovery
- Fuzzy title search with comprehensive movie data
- Integration of external rating services
- Personal movie list management with user ratings
- Class movie list show
- Preference-based classic movie recommendations
- Multi-device Account Synchronization

Application Architecture

Device Services

- Image Picker API
- File System Path

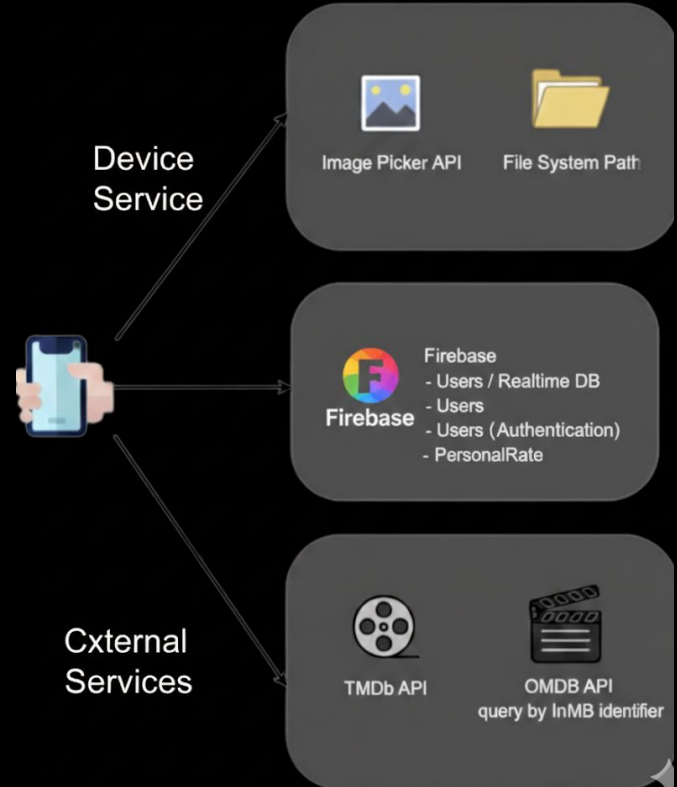

Storage Services

- Firebase

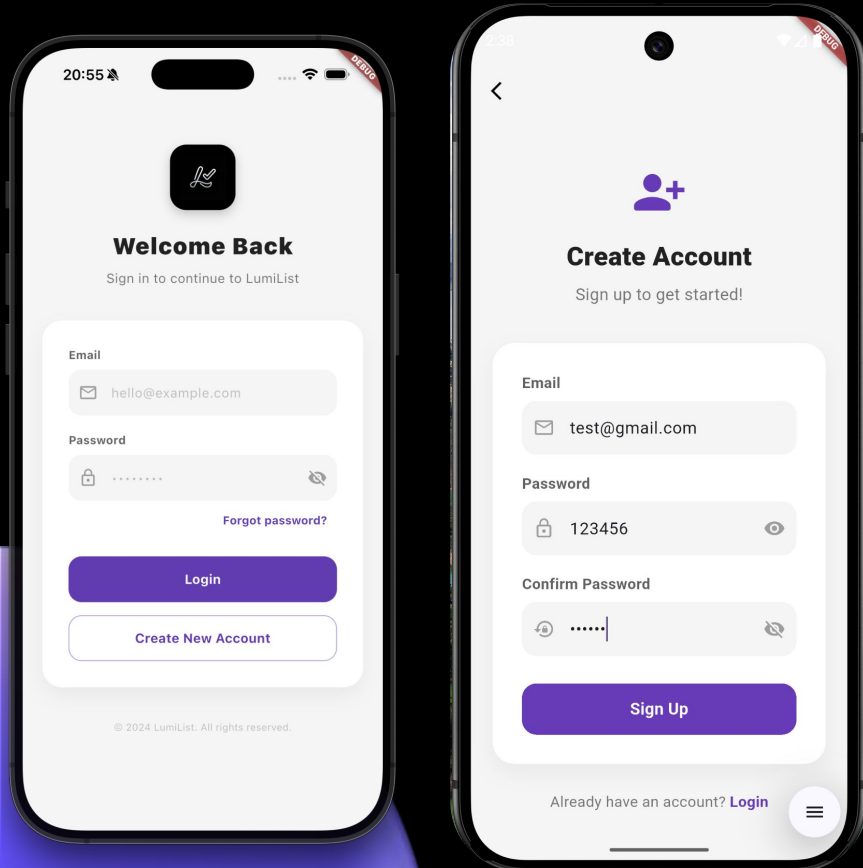

for managing user accounts (Users), movie favorites (Favorites), watchlists (SeeLater), personal ratings (PersonalRate) to get synchronous

External Services

- TMDb API
- OMDb API

UI Design — Login/Signup Page

Authentication (Login):

- Secure Firebase Login.
- Instant Credential Validation.

Onboarding (Signup):

- Simplified User Registration.
- Real-time Format Checking.
- Auto-Profile Initialization

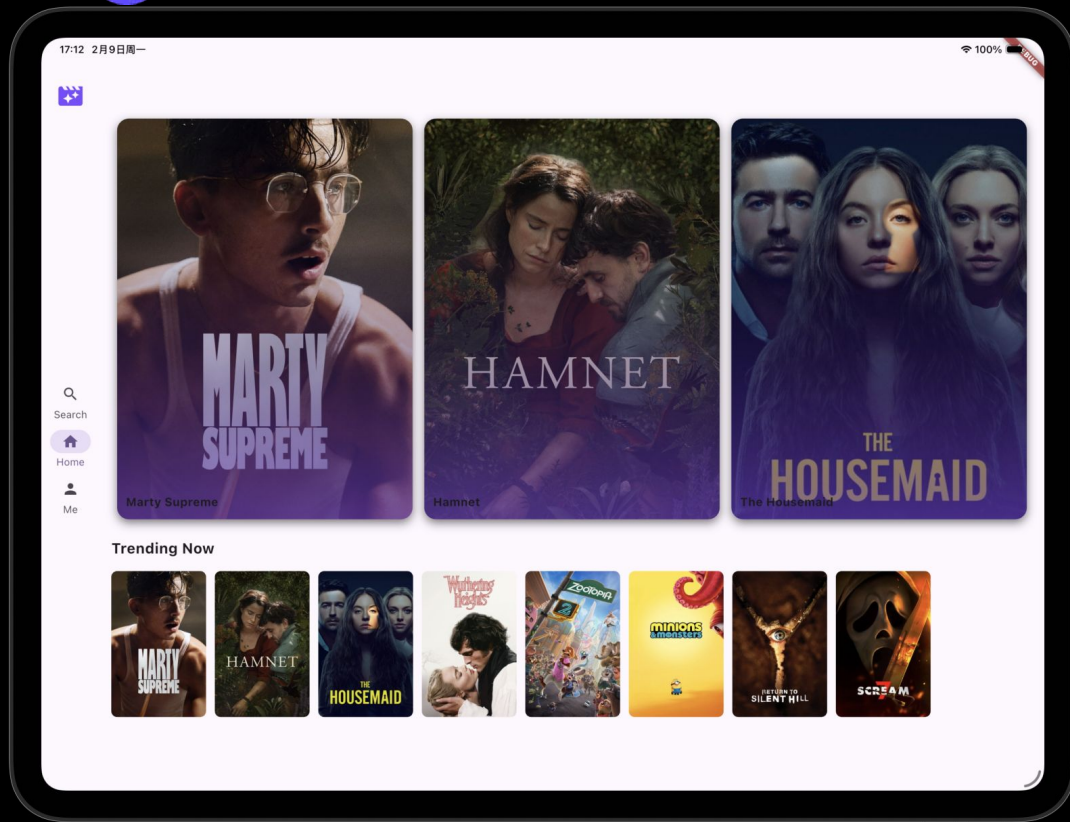

Widget Architecture

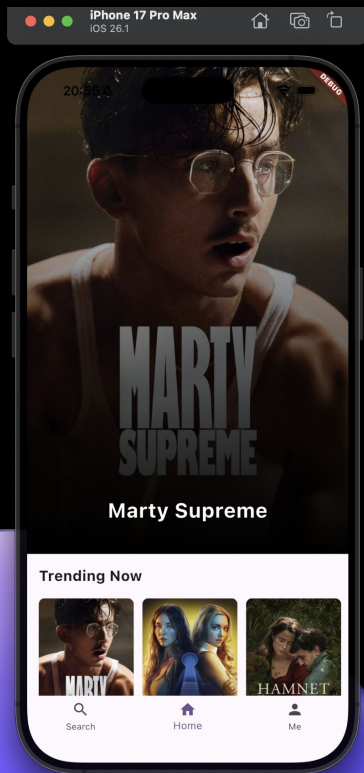

Dynamic Layout Switch to mutiple devices

Automatic Light/Dark Mode Adaptation

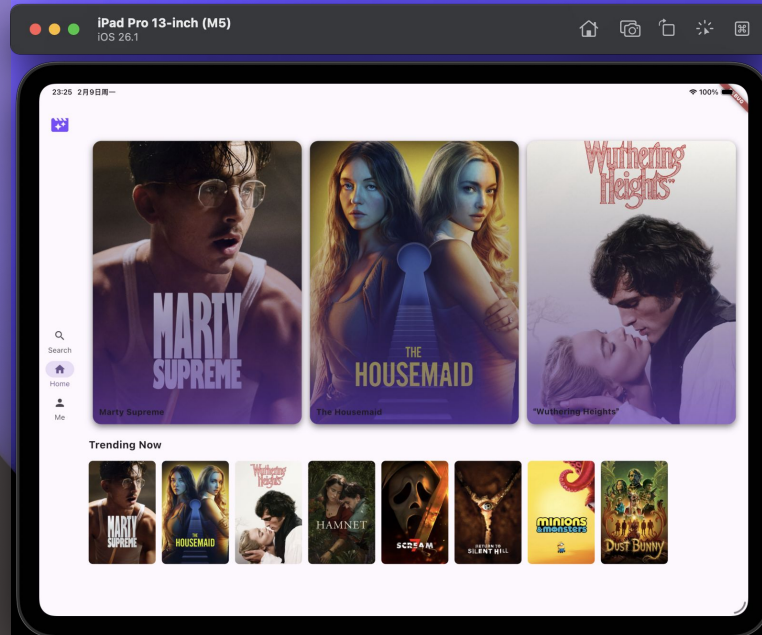

UI Design — Homepage Page

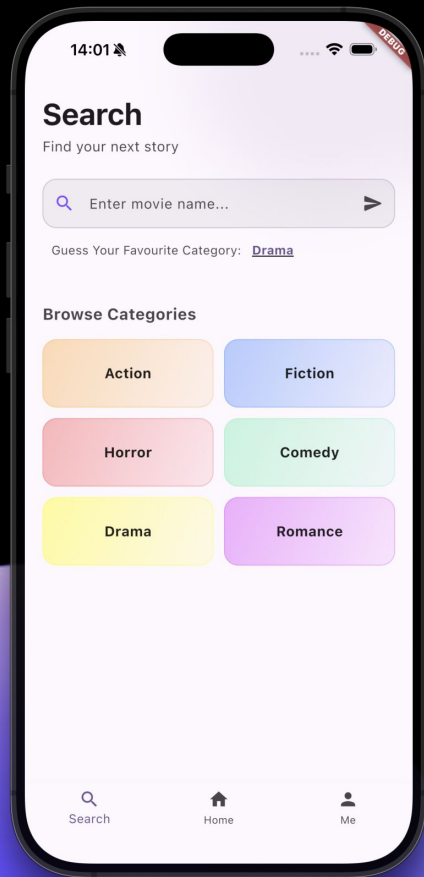

Immersive Hero Spotlight:
Featuring a dynamic movie poster as the visual centerpiece to instantly engage users and drive exploration.

Live Data Integration:
Powered by the TMDb API to provide up-to-date movie information and a seamless cinematic browsing experience

UI Design — Search Page

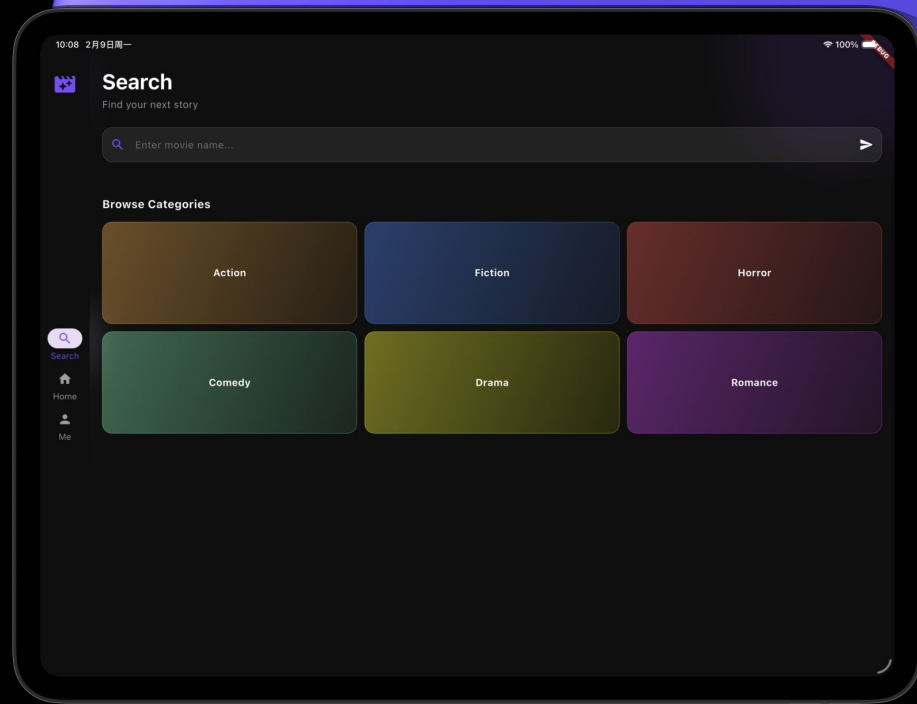

Search & Discovery

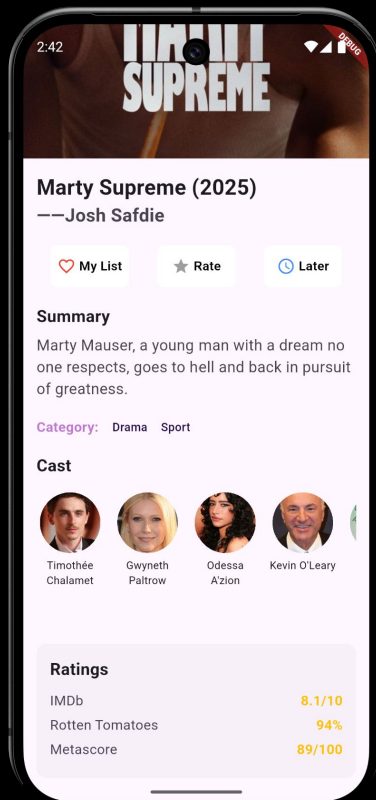

Instant Search: Real-time movie lookup via OMDb API.

Smart Filters: Quick genre-based exploration.

Direct Access: One-tap navigation to movie details.

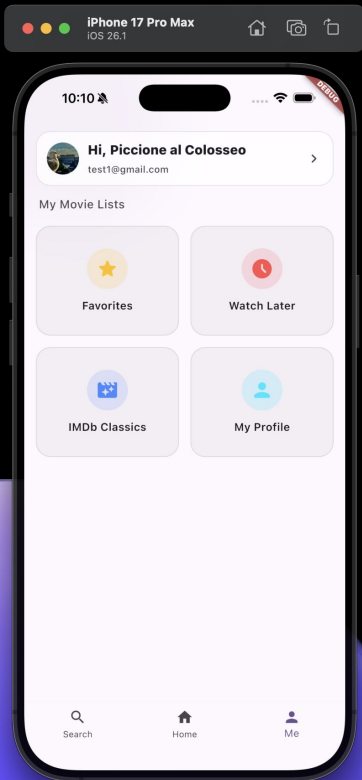

UI Design — Movie Detail Page

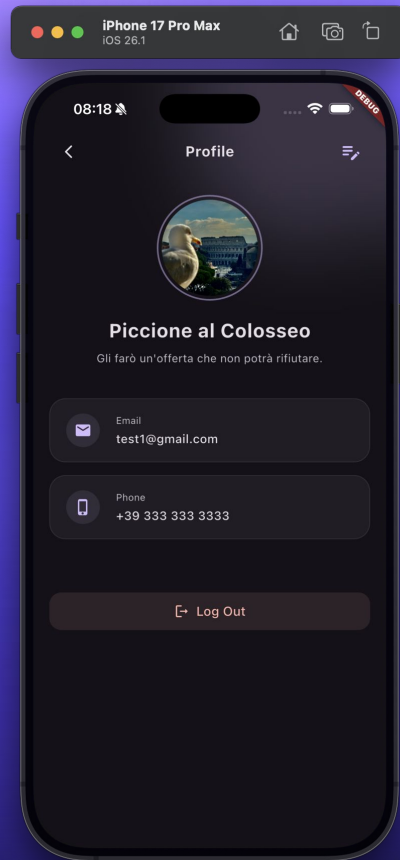

- Data Fusion: Dual-API integration for higher movie coverage.
- Interactivity: One-tap Save, Rate, and Watchlist management.
- Adaptive Design

UI Design — ME Page

Integrated Movie Ecosystem:
A unified dashboard providing quick access to all user-centric features.

- Favorites & Watch Later: Personalized lists for curated movie collections.
- IMDb Classics: Built-in discovery for high-rated cinematic masterpieces.
- My Profile: The gateway to account and identity management.

Test Campaign

- Model unit tests
- Firestore schema + DAO tests
- Widget tests
- IntegrationTest

Category	Case	Results	Tools
Model unit tests	2	Pass	flutter_test
Firestore schema + DAO tests	8	Pass	flutter_test,fake_cloud_firestore
Widget tests	4	Pass	flutter_test
Integration tests	1	Pass	integration_test, firebase_auth
